

Did you know?

COVID-19 can be serious for children.

In fact, over 700 children in the U.S under the age of 5 have died from COVID.

But you can protect your child.

The COVID-19 vaccines have been thoroughly tested for both their safety and effectiveness. You can get your child vaccinated to lessen their chance of being hospitalized or even dying.

Learn more about COVID-19 vaccines for your child at vaccinateyourfamily.org

Don't have insurance?

The Vaccines for Children program guarantees free vaccines to every child who does not have insurance.
